

Floating Mount Kit Pioneer 9-inch

Visit MetraOnline.com for more detailed information about the product and up-to-date vehicle specific applications.

The 109-UN02 is a universal mount designed to “float” the Pioneer 9-inch screen in front of a vehicle’s original radio location using a series of brackets that provide the ability to easily mount the radio’s chassis into the radio/pocket location of more than 250 existing Metra Double-DIN kits for 1990 to current vehicle applications.

- Engineered exclusively for the new 9-inch Pioneer® Modular Solutions Receiver (DMH-WC6600NEX) Radio
- A complete housing encases the Pioneer 9-inch screen
- Patent-pending design
