

AX-DSP T-Harness

The **Axxess T-harness** is a basic and simple plug-n-play harness for easy installation of the **AXDSP-X** or **AXDSP-L** (sold separately) for vehicle specific applications. Most T-harnesses created by Axxess will have an 8-pin harness, with the speaker wires pinned. If you are installing a 4-channel amplifier with one of the **AXDSP interfaces**, leave these connectors disconnected. The only reason for connecting these harnesses together would be if the **AXDSP interface** is being used for adding a subwoofer amplifier only. Some T-harnesses require additional wiring and/or installation steps.

Visit AxxessInterfaces.com for more detailed information about the product and up-to-date vehicle specific applications.

APPLICATIONS

Visit AxxessInterfaces.com for current application list.
