HE-CHASELV-4PT HEISE CONNECT LOW VOLTAGE CHASING SOLDER-ON ADAPTERS

 SALES
386-257-2956

PRODUCT OVERVIEW

These convenient solder-on adapters allow you to customize and expand your chasing LED installation using your existing low-voltage controller. Extend Heise LED lighting by connecting one of these adapters at the end of a chasing LED strip or in-line at any point in the harness. Simply cut the LED strip or extension cable connector, solder the adapter's male and female connectors, and insert wiring for a Y adapter, rock light, or other Heise lighting product.

- Solder-on connectors for Heise LED lighting products
- Works with HE-CHASELV-CB controller, not compatible with HE-CHASE-CB
- Watertight connections
- 5" length
- Universal applications
- 1-year warranty

Includes:

- (4) Female solder-on connectors
- (4) Male solder-on connectors
- (4) Threaded collars
- (8) Heat shrink tubing pieces
