PRODUCT OVERVIEW

These rock light covers can be positioned to divert light downward for accent lighting or to diffuse the strength of the light when direct lighting is not needed. They are made from durable black or white molded plastic that boasts high impact strength to ensure lasting performance. Stainless steel mounting hardware is included. These covers are installed easily over your existing compatible lights, so there is no need to drill additional holes to mount them on your vehicle.

- Available in black or white
- Material: PA-746 ABS molded plastic with UV protection
- Compatible with Heise LED rock lights
- Stainless steel screws and nuts with nylon inserts included
- 4 pack
