KIT COMPONENTS

- A) (2) Speaker adapter plates • B) (4) #8 x 3/4" Phillips screws

A

B

TOOLS REQUIRED

- Panel removal tool • Phillips screwdriver • 7mm socket wrench • Drill (optional)

CAUTION! All accessories, switches, climate controls panels, and especially air bag indicator lights must be connected before cycling the ignition. Also, do not remove the factory radio with the key in the on position, or while the vehicle is running.

DISASSEMBLY

1. Remove rear lower and upper seats.
2. Remove both lower door jam plastic trims.
3. Remove both rear side trim panels.
4. Remove driver and passenger shoulder seat belts.
5. Remove side "airbag" plastic covers to expose (1) 7mm bolt on each side, then remove the bolts.
6. Remove the side window trims from both sides.
7. Remove (2) 7mm bolts exposed (one on each side).
8. Remove (4) push pins from the rear deck cover.
9. Unclip rear deck cover to remove.
10. Remove (1) 7mm screw from each speaker, then unplug and remove the speakers.

KIT ASSEMBLY

1. Attach the speaker to the speaker adapter plate using the hardware provided with the speaker.
2. Clip the speaker assembly into place and secure with the factory hardware.
3. (2) screws have been provided for additional support.
