

## Single rock light

Wide angle 160°

Visit [HeiseLED.com](https://www.HeiseLED.com) to view the available installation parts and accessories.

### Part Components

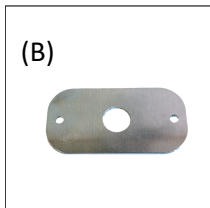

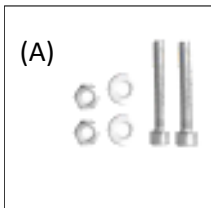

- (1) LED rock lights
- (1) Curved rubber base
- (1) Set of mounting hardware
- (1) 2ft extension cable
- (1) Drill template

### Product Features

- Quickly and easily add brilliant accent lighting to any vehicle with this Wide Angle Rock Light. This light has an improved output angle over traditional rock lights and is sold individually so that it can be used to expand other Heise LED lighting kits. This light is daisy-chainable and works with the Heise Connect Controller (sold separately) so that users can control their LEDs from the palm of their hand via the Heise Connect mobile app
- Polycarbonate lens
- Aluminum alloy body

### What's in the box:

(A) Mounting Hardware, (B) Drill template, (C) Extension cables, (D) Rock light and Base

## Mounting:

- With the drill template, mark the (2) outer holes for the screws. Use a 5/32" drill bit to drill these mounting holes.

A) For flat surface mounting, mark the center hole in the drill template for the cable to pass through. Use a 1/2" drill bit to drill the access hole.

B) For curved surfaces (using the curved rubber base) either create an access hole (see option A) or route the cables in the channels on the rear of the base.

- Insert the hex head bolt and tighten the rock light to the vehicle, using a 3mm Allen key and 7mm wrench.
