PRODUCT OVERVIEW

Metra has collaborated with VIBE Audio to create this state-of-the-art plug-n-play audio system, tailored to fit and perfectly enhance the amplified 2024-UP* Jeep Wrangler JL. Everything needed to install a premium aftermarket audio system is conveniently included in one package: VIBE's premium amplifiers, a total of six assorted VIBE speakers for the front and rear of the vehicle, and a 12" VIBE subwoofer in a sealed enclosure, paired with an assortment of Metra products that make installation easy. This assortment of Metra products includes a vehicle-specific plug-n-play amplifier interface, speaker adapters, amp brackets, and more. Engineered for seamless integration and exceptional sound performance, this kit is designed to enhance your audio experience with crystal-clear highs, robust mids, and deep bass. Every component of this kit works in harmony to deliver unparalleled sound quality. Its pre-tuned DSP and amplifier combo fits perfectly under the seat, ensuring maximum performance and optimal sound imaging. The amplifier installation harnesses bypass the factory Alpine amplifier and utilize OE speaker wires to minimize wiring. All necessary power and mounting accessories are included for a straightforward installation process.
