### PRODUCT OVERVIEW

Designed for ATVs, UTVs, dune buggies, and other powersports applications, these chasing whip lights are strong enough to withstand some of the most extreme offroading environments with an IP67 rating. In addition, they are stylish yet durable, constructed with a weather-resistant polyolefin cover and bendable polycarbonate core that is virtually unbreakable.

- High strength polycarbonate tube with spring located at the base of the whip for flexibility
- Quick connect base
- U.S. Flag included
- 1 year warranty
- Water-tight connectors to withstand the elements
- RGB controller included
- Lights controlled via a smart device app
- IP67
