MPS-RBSVMS UTV ROLLBAR CAGE SIDE MIRRORS WITH LED SPOTLIGHTS

 SALES 386-257-2956

PRODUCT OVERVIEW

The MPS-RBSVMS is a universal accessory that functions as both a forward-facing spotlight and side mirror to increase the driver's overall visibility. The anti-glare mirrors with a wide-angle viewing convex are constructed with aluminum alloy housing and rated IP68 to withstand the demands of the off-road environment. Each mirror has a light with 9 LEDs inside a smoke colored lens that produces 4,500 lumens to illuminate the left and right side of the UTV. They are designed to attach to rollbars between 1.5 and 2.5 inches and are ideal for most powersports vehicles.

- 1 pair of side mirrors (left and right)
- Aluminum alloy housing designed to withstand the most extreme punishment
- Anti-glare mirror surface
- Wide-angle viewing (convex)
- Smoke colored lens
- 9 LEDs in each mirror producing 4,500 lumens of white light
- Universal adjustable brackets fit 1.5" to 2.5" rollbars
- 1 wiring harness with relay, fuse, and carling switch
- All necessary hardware included
