## RGB1-UNDGLED RGB UNDERGLOW LIGHTING

 SALES 386-257-2956

Included hardware

### PRODUCT OVERVIEW

Heise's universal RGB LED underglow lighting package, the RGB1-UNDGLED, is rated IP67 and designed for all-terrains on powersports vehicles, boats, and cars. Users can choose from 16 million different color options using the Metra RGB smartphone app with pre-built lighting transitions, flash patterns, and more. This four-piece package includes two 36-inch and two 48-inch sealed water-resistant LED tubes, mounting hardware, and extension cables, providing a fast and durable RGB lighting solution. It has a dual connection to the controller for maximum current and even illumination. The RGB-CB1 controller is sold separately and required for RGB operation, and can be synced with additional compatible Metra RGB lighting products. A detailed video introducing this product at SEMA360 can be seen on Metra's YouTube page.

- Includes (2) 48" and (2) 36" LED tubes
- Dual connection to controller for maximum current and even illumination
- Requires RGB-CB1 controller (sold separately)
- Mounting hardware and extension cables included
- IP67 rated
